The Friedman Record

TUESDAY, SEPTEMBER 1, 2026 · BACKGROUND EDITION · LIRAN FRIEDMAN

"Nobody has ten years of experience in this."

— I have twenty years of starting from zero.

THE LEAD

I **build** the AI systems companies are trying to figure out — and **train** the people who have to run them. I am also an experienced **software engineer** — five years shipping production code. I have been doing both since the beginning — there was no playbook, so **I wrote one.**

Five years, shipped: as *sole engineer* — Probuild, a React Native offline-first field app in production with paying clients, 2024 to present. *Leading the team* — Funzy, backend and admin, the production pilot used by 8,000+ users, 2025–2026. *Building native bridges* — HyGear, fitness-device integration over BLE across native mobile platforms, 2022–2023.

Liran Friedman, AI coach & builder, Tel Aviv.

WHAT I BUILD

Expert agents — always-on specialists that know the business

Scheduled agents — recurring reports, system access, computer use

Communication agents — 24/7 on WhatsApp, Gmail, Slack and Telegram

AI work infrastructure — instruction files, knowledge bases and procedures

Custom software — applications and dedicated solutions when that is the answer

WHAT I TEACH

Company-wide AI adoption — how a whole organisation works with AI

Continuous training — from the owner down to every employee

One-to-one coaching — for owners and nontechnical professionals

"AI Basics" — a ten-part course in English and Hebrew

ROLES

Before the code, there was command. Military / command / instruction.

PAGE 3
Teaching was already the job. Teaching / operations / education.

PAGE 4
Music made, managed & released. Audio / music / artist development.

THE ARC — TWENTY YEARS, FIVE TRADES

COMMAND	KITCHEN	STUDIO	CODE	AI
2004	**2013**	**2016**	**2021**	**2026**
Led an air-defence unit from age twenty-one.	Ran a Tel Aviv kitchen for three years.	Built a studio and record label from scratch.	Self-taught in six months. Five years shipped.	Now building systems and teaching others to use them.

Every one of those was learned from zero, self-taught.

Before the code, there was command.

Four years of active service in Israel Air Force Air Defense, followed by nearly 15 years of reserve responsibility. Led personnel, implemented operational directives, trained teams and built instructional systems around complex technical work.

SERVICE FILE

2004–08
ACTIVE SERVICE

~15 yrs
RESERVE RESPONSIBILITY

PATRIOT OFFICER · LIEUTENANT

OPERATIONAL & RESERVE SERVICE

July–December 2004: flight-course cadet in the Israel Air Force. Early 2005: transferred to the Air Defense array and trained on the Patriot system. Completed commanders' training, IDF officer training at Bahad 1 and the Air Defense branch-specific officer completion at BISNAM.

Led personnel in a high-accountability technical environment: implemented operational directives, converted them into working procedures, instructed and qualified personnel, and built training frameworks. In reserves, served with the Megiddo Unit and held responsibility for reserve personnel for nearly 15 years. The unit supports joint readiness and operational liaison with U.S. forces.

"I led people, trained them, and built the systems that made the team ready."

SPECIALIZED MILITARY COURSES

01 Hadarat
INSTRUCTION & DELIVERY TECHNIQUES / REPEATED ACROSS THREE STAGES

Completed during commanders' training, at Bahad 1 and during the Air Defense branch completion. Applied methods for structuring lessons, delivering operational material clearly, maintaining attention and verifying understanding.

02 Effective Learning
BAHAD 1 / OFFICER TRAINING

Methods for mastering dense professional material, organizing information for retention, and teaching it accurately under the demands of officer training.

03 Instructor Qualification
BISNAM / SOFTWARE-CONVERSION PROJECT

Qualified to instruct personnel during an internal software conversion. Translated system instructions into lesson structures, supported user adoption, and organized repeatable knowledge transfer across the unit.

04 Manof
IAF COMMAND & LEADERSHIP SCHOOL

Selective IAF leadership-development program focused on conscious leadership: recognizing automatic command patterns, aligning behavior with vision and strengths, and developing more deliberate leadership judgment.

LEADERSHIP CAPABILITIES — people leadership / operational instruction / train-the-trainer / knowledge transfer / change adoption / reserve personnel responsibility / command judgment

Teaching was already the job.

AI only changed the subject.

Experience in public instruction, employee onboarding, curriculum development, logistics and live operations — with direct responsibility for helping people perform reliably inside demanding systems.

APPLE / PEOPLE

iDigital

MARCH 2009 – JULY 2011

Sales, public product training, employee onboarding and branch operations for Apple's Israeli distributor.

- Helped form the founding team of the Dizengoff Center store.
- Delivered public training on Apple products and how to use them.
- Owned onboarding and training for new store employees.
- Logistics manager, November 2010 – July 2011.

TEACHING / CONTENT

High-Q

JULY 2011 – FEBRUARY 2014

Psychometric-test instructor and contributor to the instructional product itself.

- Teacher training completed July 2011; first full course delivered for the December examination period.
- Helped build the written-composition workshop.
- Taught the advanced Psychometric 750 course twice in Tel Aviv.
- Wrote quantitative-reasoning and logic questions for simulations and course books.

LIVE OPERATIONS

Eyal Shani kitchens

MARCH 2015 – MARCH 2021

Six years in high-volume Tel Aviv kitchens, progressing from live service to operational leadership and dedicated training.

- Miznon Ibn Gabirol, 2015–2017. North Abraxas, 2017–2021.
- As checker, led evening service — coordinating stations, order flow, timing and quality under pressure.
- For the final two years at North Abraxas, returned twice weekly solely to train incoming cooks on ingredients and kitchen processes.

PSYCHOMETRIC	MATRICULATION AVG.	ENGLISH / MATH / PHYSICS / MUSIC

EDUCATION

Galili High School

KFAR SABA / 2001–2004

Physics and music majors with a full matriculation certificate. Five-unit study in native-speaker English, mathematics, physics and music — analytical and creative systems learned side by side.

Shenkar / Pluto Studios

TEL AVIV / OCTOBER 2012 – JULY 2014

Professional Certificate in Sound Engineering through Shenkar External Studies at Pluto Studios: electricity, electronics, acoustics, signal flow, microphones, loudspeakers, consoles, live sound, recording, editing, synthesis, production, mixing and mastering.

"Different industries, same recurring role: learn the system, hold the standard, lead the team, and help other people perform inside it."

Music made, managed & released.

Certified audio engineer, studio manager, musician and label founder — with experience recording albums, developing artists, publishing original music and running creative operations.

PROFESSIONAL EDUCATION & CREDENTIALS

AUDIO EDUCATION

Shenkar / Pluto Studios

PROFESSIONAL SOUND ENGINEERING CERTIFICATE / 2012–2014

Sound engineering: electricity, signal flow, acoustics, microphones, consoles, live sound, recording, editing, synthesis, production, mixing and mastering.

MUSIC EDUCATION

Galili music program

FIVE-UNIT MUSIC MAJOR / 2001–2004

Formal music study alongside ensemble leadership. Guided student groups and created musical arrangements as an ensemble instructor from 2002 to 2004.

PROFESSIONAL ROLES & CREATIVE WORK

STUDIO & AUDIO

Pluto Studios

ASSISTANT TO DORON PLASKOV / 2013–2015

Recorded artists and created sound design for applications, games and advertising.

Mishmash Studios

STUDIO MANAGER / PARTNER / 2015 ONWARD

Managed studio operations, multitrack recording and production; built two recording rooms and recorded album projects.

ARTIST & LABEL DEVELOPMENT

Independent label founder

Created and operated an independent label; published original music and managed releases from recording through completion.

Artist development

Mentored an artist and contributed artistic consulting, arrangements, vocal production, songwriting and composition in Hebrew and English.

PERFORMANCE & PROJECTS

Finjan

GUITAR / ARRANGING / CO-PRODUCTION

Guitarist, arranger and co-producer, 2006–2012; band manager, 2010–2012.

Yeled Al Hayareach

KEYBOARDS / PROGRAMMING / 2011 ONWARD

Keyboards, programming, arranging, vocal production and live performance.

fritzzzz

SOLO HIP-HOP PROJECT

Wrote, produced and recorded the project independently.

TECHNICAL & PERFORMANCE PRACTICE

Pro Tools, Logic and Cubase; analog and digital consoles; studio wiring, outboard equipment, acoustics and signal-path troubleshooting.

Guitar, keyboards, bass guitar, percussion and vocals. MainStage, Ableton Live, Native Instruments, Arturia and Spectrasonics. Composition and sound design for visual media.

"For years, I have helped people hear what they already know, decide where they want to go, and use the right tools to get there."
